# Reference Projects

Our team of experts has put together a selection of the best A/V systems available, so you can see for yourself what's possible. Each Reference Project includes a detailed description of the equipment used, as well as photos and videos of the finished product.

## What to expect:

When working on a commercial project with AV Zone, you can expect professionalism, quality work, and a dedication to meeting your needs and expectations.

The following references showcase our dedication towards our cause.

CLEO COUNTY HOUSING , NOIDA – SECTOR 121

## Project Details:

AV ZONE has been providing complete AV solutions and clubhouse music for Cleo County Housing Society. The main aim of AV ZONE is to provide the residents of Cleo County Housing Society with an unparalleled living experience. The company has a team of highly skilled and experienced professionals who work round the clock to ensure that all the residents are provided with the best possible services.

AV ZONE has been providing a wide range of services to the residents of Gold County Housing Society. Some of the services provided by AV ZONE include:

- Complete AV solutions for the society's clubhouse.
- Music for all the society's events.
- Theatre Room

ABA CLEO GOLD HOUSING , NOIDA - SECTOR 121

## Project Details:

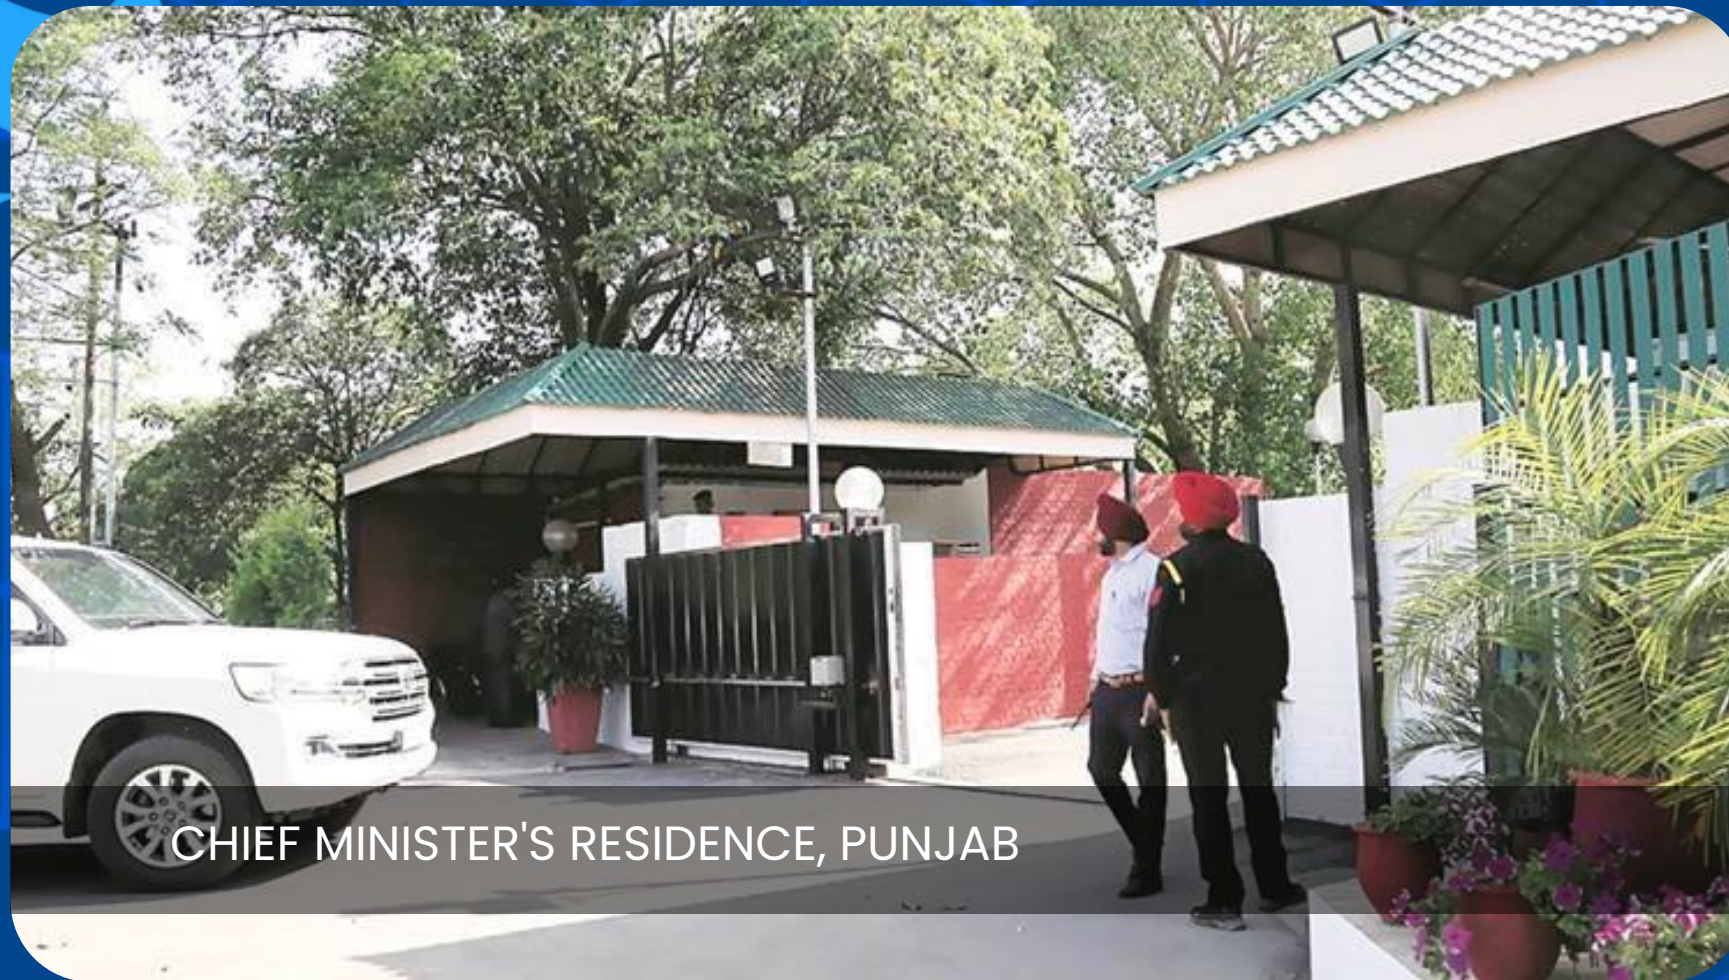

ABA CLEO GOLD is a renowned housing society located in the heart of Noida. It is one of the most prestigious and luxurious societies in the city. The society has a number of high-rise buildings, each with its own unique amenities and facilities. The society also has its own clubhouse, which is a popular destination for residents and visitors alike.

The clubhouse is a large and spacious facility that houses a number of amenities, The clubhouse also has its own music system solution, which is used to provide music for the residents and visitors of the society.

The music system in the clubhouse is a complete AV solution that has been provided by AV Zone. The music system includes a number of components that work together to provide a complete and high-quality sound system.

The music system in the clubhouse is controlled by a central system that is located in the office.

CHIEF MINISTER'S RESIDENCE, PUNJAB

## Project Details:

The Chief Minister of Punjab is the chief executive of the state of Punjab in North India. He is the head of the government and is responsible for the overall administration of the state.

AV Zone provided a complete AV solution for the Chief Minister's House in Punjab. The project included the design and installation of a state-of-the-art audio visual system that would be used for a variety of purposes, including conferences, meetings, and events.

AV Zone worked closely with the Chief Minister's team to ensure that the system met their specific needs and requirements.

The system was designed to be user-friendly and easy to operate, with a focus on delivering high-quality audio and visual performance.

The project was completed on time and within budget, and the Chief Minister's House was equipped with a world-class AV system that will help them to effectively communicate and engage with their constituents.

KAPURTHALA HOUSE, NEW DELHI

## Project Details:

The Punjab government had a specific requirement for their Kapurthala House in Delhi – a complete music solution that would provide audio throughout the property. AV Zone was selected as the ideal candidate to provide this solution, and designed a comprehensive system that would provide music in every room, both indoors and outdoors.

The system began with a central music server, which was loaded with a wide variety of music to suit every taste. This music was then distributed to each room via a network of speakers, ensuring that everyone in the house could enjoy their favourite tunes.

In addition to the main music system, AV Zone also installed a number of background music zones, which could be used to provide a relaxing ambience. These zones could be controlled independently, meaning that the perfect atmosphere could be created for any occasion.

The final element of the project was the installation of an outdoor sound system, which would allow the residents to enjoy the garden and grounds even when the weather wasn't ideal. This system was designed to be extremely weather-resistant, and provided high-quality sound even in the most challenging conditions.

MOTI BAGH PALACE, PATIALA

## Project Details:

The Moti Bagh Palace is a royal palace located in the city of Patiala, Punjab, India. It is one of the largest private residences in India, and covers an area of over 200 acres.

AV Zone was approached to provide a turnkey audio and music solution for the Motibagh Palace. The scope of work included the design and installation of a complete audio system for the palace's public spaces, as well as a music system for the guest rooms.

AV Zone's team of audio experts designed and installed a state-of-the-art audio system that would meet the specific needs of the Motibagh Palace.

The audio system was designed to provide superior sound quality and coverage throughout the public spaces of the palace.

In addition, the audio system was also designed to be easily controlled and managed by the palace's staff.

BRITISH HIGH COMMISSION, NEW DELHI

## Project Details:

The British High Commission in New Delhi is the United Kingdom's diplomatic mission to India. The High Commission is responsible for developing and maintaining relations between the UK and India.

The High Commission approached AV Zone for a solution that would provide background music as well as conferencing capabilities for their events. AV Zone designed and installed a bespoke audio system that met the specific requirements of the High Commission. The system was designed to provide even coverage of music throughout the event space.

AV Zone also supplied and installed a state-of-the-art conferencing system which was integrated with the background music system, allowing for seamless switching between the two.

AV Zone also provided on-going support to the High Commission, ensuring that the systems are always operating at peak performance.

AUSTRALIAN HIGH COMMISSION, NEW DELHI

## Project Details:

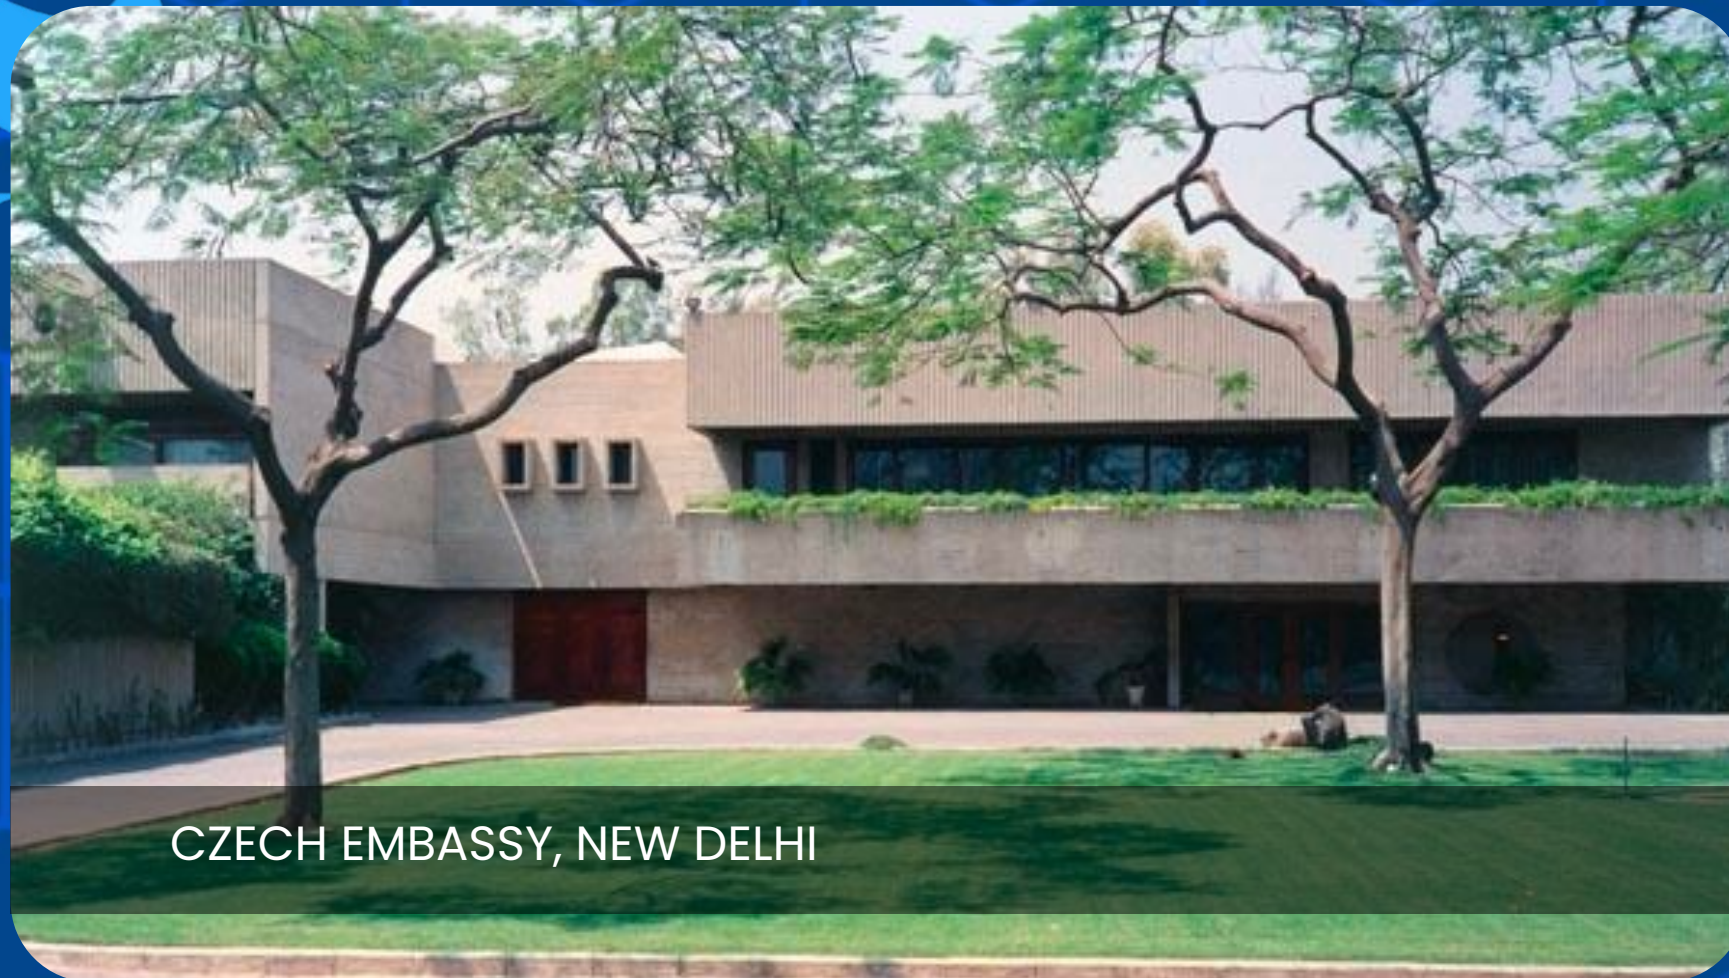

AV Zone was approached by the Australian High Commission in New Delhi to provide a background music solution that would create a more inviting, relaxed and enjoyable atmosphere for staff, clients and visitors to the High Commission.

AV Zone proposed and installed a state-of-the-art background music system with an easy-to-use control interface. The system was designed to blend in with the High Commission's existing décor and furnishings, and was installed with minimal disruption to the working environment.

Since the installation of the system, the Australian High Commission in New Delhi has reported a significant improvement in the overall ambience of the building, with staff, clients and visitors all commenting on the difference the background music has made.

The High Commission has also found the system to be extremely user-friendly and easy to control.

CZECH EMBASSY, NEW DELHI

## Project Details:

AV Zone was approached by the Czech Embassy in New Delhi to provide a background music solution that would create a pleasant and comfortable ambience for visitors to the embassy.

After discussing the specific requirements of the embassy, AV Zone proposed and installed a background music system.

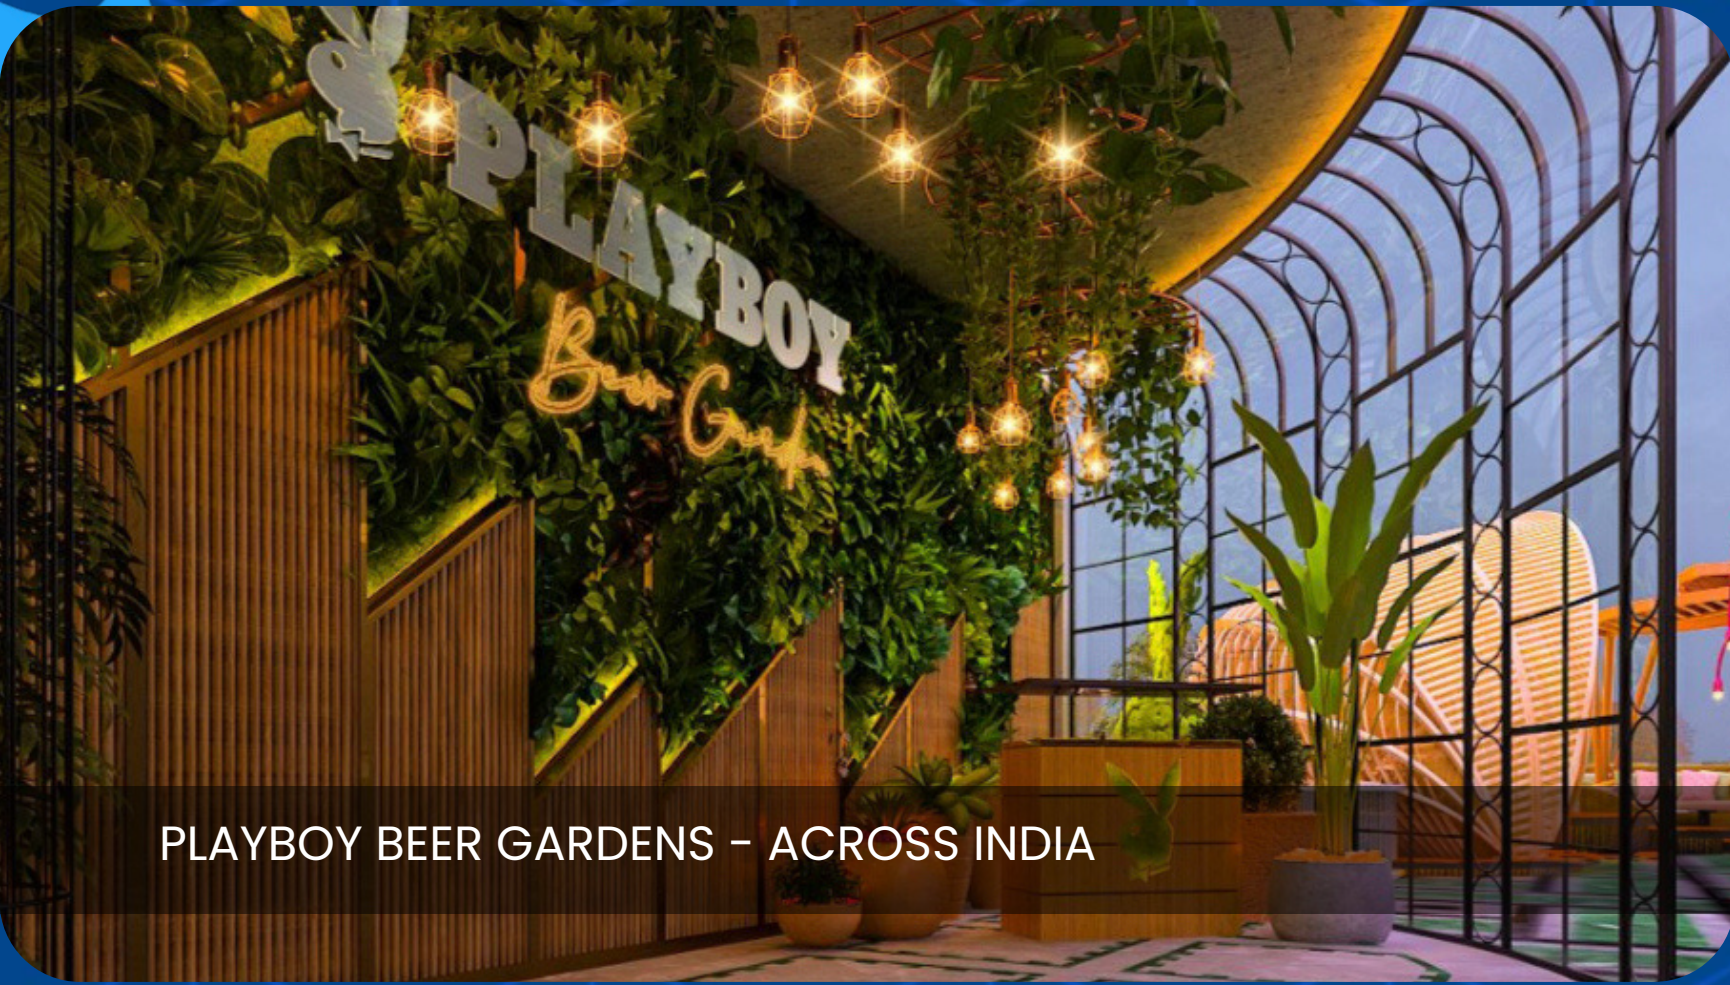

AV Zone suggested to use an invisible audio system because of the high ceilings in the embassy. The audio system had to be powerful enough to fill the whole space with music and at the same time not to be too loud or intrusive.

A system which was able to evenly distribute background music throughout the embassy's waiting area, reception area and event corridors.

The audio system is connected to a device, which is used to play music from various online music streaming services. The embassy is very happy with the result and the visitors can now enjoy background music while waiting for their appointments as well as for other events.

PLAYBOY BEER GARDENS – ACROSS INDIA

### Project Details:

In order to ensure that Playboy Beer Gardens had complete audio and video solutions with lighting, AV Zone provided a comprehensive package that included everything from the initial design to the installation and maintenance of the system. This allowed the client to focus on their business while we took care of the technical aspects.

The first step was to consult with the client in order to understand their specific needs and requirements. Based on this, we designed a bespoke system that would meet their exact specifications.

Once the design was approved, we began the installation process. This involved running cables and installing speakers, digital panels, and other equipment.

Once the installation was complete, we carried out a series of tests to ensure that the system was functioning properly. We also provided training to the client's staff on how to use the system.

AUDITORIUM AT HINDU COLLEGE, NEW DELHI

## Project Details:

AV Zone was approached by the Hindu college in New Delhi to provide a complete audio and video setup for their auditorium. The Hindu college had a clear vision of what they wanted and AV Zone was able to provide a complete solution that met their needs and expectations.

The Hindu college auditorium is a large space that needed to be filled with high-quality sound. The audio system was tuned to the specific acoustics of the auditorium to ensure that the sound was clear and evenly distributed throughout the space.

The Hindu college also wanted to have a large video screen at the front of the auditorium. AV Zone provided a video projector and screen that were installed by our team of professional technicians. The video system was calibrated to the specific lighting conditions of the auditorium to ensure that the image was clear and bright.

The auditorium now has a professional quality sound and video system that will enhance the experience of all who use it.

DLF KING'S COURT, GREATER KAILASH, NEW DELHI

## Project Details:

In today's times, a good music system is the key to any perfect event. It can turn an ordinary party into an extraordinary one. The right music at the right time always creates the perfect ambience.

Delhi's luxury housing society, DLF King's Court, has a massive club house that is perfect for hosting functions and events.

This is where AV Zone came in. We provided them with a complete background music solution that comprised of high-quality speakers, amplifiers, and a music player.

Since installing our music system, DLF King's Court has been able to host some truly spectacular events.

Their guests have been thoroughly impressed with the overall experience, and the club house has become the go-to venue for functions and parties in Delhi.

AUDITORIUM AT UTTAM PUBLIC SCHOOL, GHAZIABAD

## Project Details:

Auditoriums are an important part of any educational institution as they provide a space for students to come together and learn in a more interactive setting. However, designing and building an auditorium can be a daunting task, especially when it comes to choosing the right audio visual (AV) solutions.

This was the case for Uttam Public School in Ghaziabad, India, who were looking to build a new auditorium for their students. They approached AV Zone, for a complete AV solution that would meet their needs.

The final result was an auditorium that was equipped with everything necessary to host a variety of events, from small presentations to large-scale performances.

The sound system was of the highest quality, providing clear and concise audio, while the visual setup included a projector and screen, ensuring that everyone in the auditorium would have a perfect view of any presentations or videos that were played.

INFOTECH CENTRE BY BK DEVELOPERS, GURGAON

## Project Details:

The client, Infotech Centre, required a complete audio visual solution for their new office space in Gurgaon. They were looking for a partner who could provide them with a comprehensive solution that would cover all their needs, from conferencing to PA systems and music.

AV Zone was able to provide Infotech Centre with a complete solution that met all their requirements and exceeded their expectations.

The solution provided by AV Zone included a complete conferencing system, with high-quality microphones and speakers, that allowed Infotech Centre to hold meetings and conferences with ease. In addition, AV Zone also installed a PA system that allowed Infotech Centre to make announcements and play music throughout the centre.

Overall, AV Zone's complete audio visual solution has helped Infotech Centre to create a modern and efficient office space that meets all their needs.

ROYAL ORCHID HOTELS

## Project Details:

The hotel industry is a booming business, and with that comes the need for quality audio visual solutions that can help make any event or gathering a success. That's where AV Zone comes in. We are a leading provider of audio visual equipment and services, and we've worked with some of the biggest names in the hospitality industry, including Royal Orchid Hotels.

Royal Orchid Hotels is a chain of luxury hotels with locations across India. The company needed a complete audio visual solution that would include everything from the initial design and planning stages to the final installation.

We started by working with the Royal Orchid team to understand their specific needs and requirements. We then created a custom audio visual solution that included everything from the latest in audio visual equipment to on-site support and management.

The feedback from the Royal Orchid team was extremely positive. They were very pleased with the complete audio visual solution that we provided.

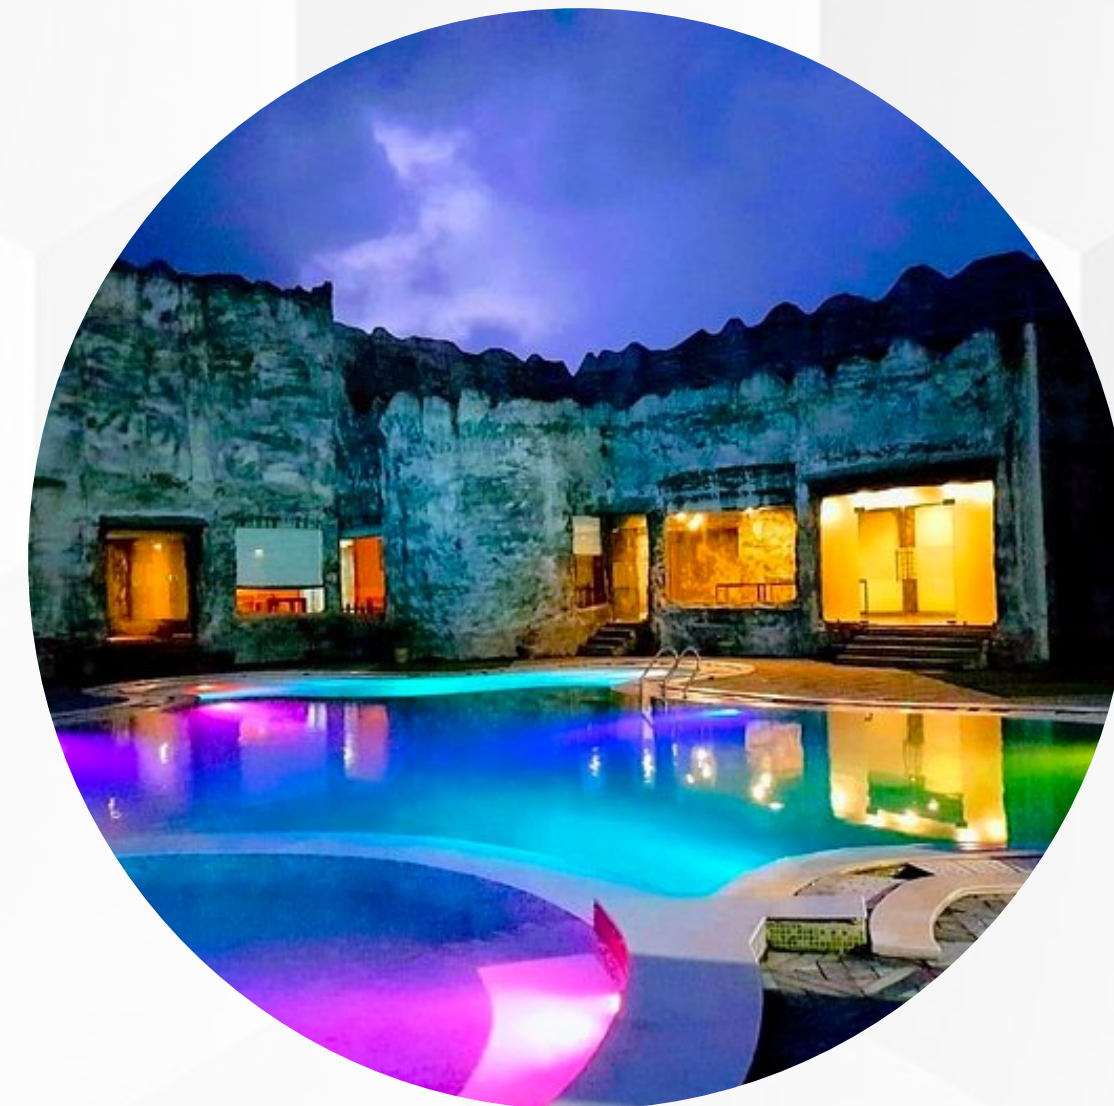

BRYC CAVES & RESORTS, JIM CORBETT

## Project Details:

The AVZone team was excited to provide complete audio solutions to BRYC caves, a jungle themed resort. The goal was to provide audio that would transport guests from the gym to the restaurant and dance area, and create an immersive experience that would make them feel like they were truly in the jungle.

The audio was provided by AVZone's team of experts who have years of experience in the industry. AV Zone's team worked closely with the BRYC caves team to ensure that the audio system met their needs and expectations.

The first step was to design a system that would provide the necessary coverage and sound quality. The team used a combination of in-ceiling and surface-mount speakers to create an even coverage throughout the space.

The result was a truly immersive experience that made guests feel like they were in the heart of the jungle.

HALDIRAM'S - ACROSS NORTH INDIA

## Project Details:

Haldiram's, a popular chain of restaurants in North India, approached AV Zone for complete audio solutions for their stores. AV Zone proposed a comprehensive audio solution that would cover all the requirements of Haldiram's, including background music, paging, and emergency announcements.

The solution proposed by AV Zone was implemented across all Haldiram's stores in North India, and has been working smoothly since.

The background music system creates a pleasant ambience for customers, while the paging and emergency announcement system ensures that important announcements can be made quickly and easily.

Overall, AV Zone's audio solution has been a great success for Haldiram's, and has helped to create a more enjoyable dining experience for diners.

LACOSTE - ACROSS NORTH INDIA

## Project Details:

In order to provide complete audio solutions to Lacoste stores across North India, AV Zone integrated several audio systems from different manufacturers. The main goal was to have a complete and cohesive audio system that would provide high quality sound for the customers in the store, as well as be able to withstand the high volume levels that are typically present in retail environments.

The first step was to install ceiling speakers in each store. These ceiling speakers were chosen for their high quality sound reproduction and their ability to evenly distribute sound throughout the store.

In order to provide the customer with a more immersive shopping experience, AV Zone also installed background music systems in each store. The background music systems were specifically chosen for their ability to create a wide soundscape that would envelop the customer in the Lacoste brand.

AV Zone also installed paging systems in each store which were chosen for their clarity and their ability to be heard over the background music.

# RITU KUMAR

ரித்து குமார்

RITU KUMAR FASHION STORES - ACROSS INDIA

## Project Details:

In today's retail environment, the customer's in-store experience is just as important as the product they're purchasing. To create a luxury shopping environment that reflects the high-end fashion brand, Ritu Kumar enlisted the help of leading audio-visual integrator, AV Zone.

AV Zone provided complete audio solutions for Ritu Kumar's fashion stores across India, including an elegant background music system and discreet in-ceiling speakers.

The audio system was designed to provide the perfect ambiance for customers as they browse the latest collections.

The AV Zone team worked closely with Ritu Kumar's team to ensure that the audio solutions perfectly reflected the luxury brand. The end result is a shopping experience that is both stylish and modern.

PETER ENGLAND STORES - ACROSS NORTH INDIA

## Project Details:

In today's world, first impressions are very important, especially when it comes to businesses. That's why having a great audio system is essential for any store looking to make a good impression on their customers.

That's why AV Zone was thrilled to work with Peter England Clothing Stores on their audio needs. We provided complete audio solutions for their stores across North India, ensuring that each one had the perfect sound system for their needs.

We started by assessing the acoustics of each store and then designed a custom sound system that would work perfectly in that space. We installed speakers, amplifiers, and other equipment as needed to create a system that would provide clear, high-quality sound.

All of this resulted in a great experience for customers at Peter England Clothing Stores. They could shop in a relaxed and enjoyable environment, knowing that they were getting the best possible service.

“

We are committed to providing the highest quality products and services to our clients'.

BRINGING YOUR VISIONS TO LIFE.
